

TDG on Law-Related Education

The HKIEd law-related education project would provide teachers with background on key concepts within the Common Law tradition including basic knowledge and values of the rule of law and the Hong Kong legal system, individual rights and protection under the law, important legal decisions and legal controversies, and comparisons with other legal systems (e.g., Mainland China). Beyond this, however, and a key element of the project, would be the provision of both curricular resources and opportunities to acquire relevant pedagogical skills for teaching law-related topics in Hong Kong's primary and secondary schools.
