

Human Development (EPC1137) Semester I, 2010-2011, 4-Year Full Time BEd.
Child Study – Assessment Cover Sheet

TO BE FILLED IN BY STUDENT	
Student Name: _____	Student No.: _____ Group No.: _____ Name of Tutor: _____ Date submitted(yy/mm/dd): _____
Circle the appropriate task:	
Conservation of Substance	The Oscillation of a Pendulum
Student Declaration: Except where I have otherwise indicated by appropriate referencing, this assignment is entirely my own written work and has not been used for any other assessment. I have implemented the relevant HKIEd Code of Ethics and have the informed consent of the child's legal guardian.	
STUDENT'S SIGNATURE: _____	

TO BE FILLED IN BY TUTOR

Criterion	Rating			
	F	D	C	B
1. Theoretical Background	☐ Demonstrates little understanding of the theoretical issues surrounding the chosen topic ☐ The methods, equipment, process and procedures of data collection are unclear and with errors	☐ Demonstrates partial understanding of the theoretical issues surrounding the chosen topic ☐ The methods, equipment, process and procedures of data collection are partially presented	☐ Demonstrates general grasp of the theoretical issues surrounding the chosen topic ☐ The methods, equipment, process and procedures of data collection are presented, but with some errors	☐ Demonstrates a sound, but uncritical understanding of the theoretical issues surrounding the chosen topic ☐ The methods, equipment, process and procedures of data collection are generally clearly presented
2. Data Collection	☐ The methods, equipment, process and procedures of data collection are unclear and with errors ☐ Presents an irrelevant version of the protocol	☐ The methods, equipment, process and procedures of data collection are partially presented ☐ Presents an unedited version of the protocol	☐ The methods, equipment, process and procedures of data collection are presented, but with some errors ☐ Presents an edited version of the protocol	☐ The methods, equipment, process and procedures of data collection are clearly and systematically presented, with appropriate and complete details ☐ The protocol is well-edited with high precision and accuracy
3. Results	☐ Presents an irrelevant version of the protocol ☐ There is no link between theories and analysis of the case	☐ There is a weak link between theories and analysis of the case ☐ An attempt has been made to organize the material but has not been effective	☐ Superficial link between the theories and the analysis of the case ☐ The material is mainly organized	☐ There is a clear, accurate and appropriate link between theories and analysis of the case ☐ The material is superbly organized
4. Interpretation of Results and Conclusion	☐ The material is poorly organized ☐ There are major and frequent mistakes in written expression	☐ There are major mistakes in written expression ☐ The work is weakly documented	☐ The language is reasonably fluent but has some grammatical weakness ☐ An attempt has been made to observe the conventions but with error	☐ The work is fluently written, showing high level of language proficiency ☐ The work is well-documented with high accuracy and clarity
