It is the University's aim to provide an enriched campus environment of quality facilities and multifarious development programmes to enable you to achieve personal and professional excellence. You are encouraged to make full use of these services and programmes to achieve a balanced personal and professional growth.

### 1. Student Affairs Office

---

The Student Affairs Office (SAO) provides student services and co-curricular activities in the University. The Office aims to create an open and supportive environment which is conducive to your active learning and all-rounded development. Information on programmes, activities and services can be found on SAO website, [The Portal](#), campus notice boards and through regular visits to the SAO at B4-G/F-01. Highlights of some services are listed below:

#### 1. Career Development Services

To empower students to identify their potential and thus develop a growth mindset, we provide all-round career activities and events to students throughout the year, such as career education, mentorship, internships (local, Greater China Region and overseas), career fairs, recruitment talks, workshops and job search skills training programmes. These activities help local and non-local students understand their career interests or choices, map out career paths, enhance career preparation as well as increase employability. Students can easily access career resources, job vacancy information and apply for jobs online via EdUHK Job Search Platform “[Ed Job Plus](#)”. Students are welcome to visit our website at <https://eduhk.hk/sao/info/career/>. For enquiries, please call 2948 6246 or email to [careerservice@eduhk.hk](mailto:careerservice@eduhk.hk).

#### 2. Counselling Services

The psychological counselling at the SAO helps students make desired changes and decisions, especially in time of difficulties or facing challenges. Counselling goes beyond problem-solving, it provides support for students and helps them discover more about themselves and their potentials. Counsellors at SAO are professionally trained and experienced. Counselling sessions are free and confidential where students are always welcome to come and talk to counsellors about their concerns. To enhance the students' psychological wellness, counsellors also carry out various workshops and mental health education activities during the semesters.

Students who are in need of counselling support outside office hours can call the non-office-hour Counselling Hotline 8208 1155.

### 3. Supports for Non-local Students

SAO provides non-local students with support services throughout their course of studies at the University. A wide range of services and activities including orientation, community and cultural exploration activities, festival gatherings, group activities and personal guidance are offered to help students gain a better understanding of the Hong Kong community, to adjust to study and campus life, to integrate with locals, to foster mutual support, as well as to facilitate cultural exchanges among all students. For details, students are welcome to visit SAO website at [https://www.eduhk.hk/sao/info/non\\_local\\_student\\_support\\_services](https://www.eduhk.hk/sao/info/non_local_student_support_services).

### 4. Student Health Service

The Health Centre provides primary medical services to all students, staff and authorised users. All students, including both full-time and part-time, are charged a nominal fee of HK\$20 for each general consultation. Special services provided at the Health Centre include annual health check-up, gynaecological check-up, vaccination and simple surgery. Emergency service is also available.

To achieve holistic health for all, the SAO and the Health Centre organise regular health education programmes to enhance students' health knowledge and promote preventive healthcare throughout the year.

Prior appointment is advised as walk-in service may require a longer waiting time. SDTs are regularly in touch with the students to support various aspects such as plan review, career and life development exploration.
