STUDENT AFFAIRS OFFICE

Point System for Hall Admission 2021/22

The review on Hall Point System for hall admission with inputs from stakeholders including current residents, student bodies, Wardens, Senior Tutors, Student Hall Tutors, Student Residents' Associations and all student is held annually. A series of consultation sessions and an online consultation were conducted from October 2020 to January 2021 to collect views from various stakeholders on the Hall Point System. Based on stakeholders' views collected, the hall point ratio and maximum points capped in various sections would **remain unchanged** for implementation in the Hall Admission for 2021/22.

The Point System for Hall Admission for 2021/22 as approved by the Student Affairs Committee in February 2021 is as follows.

Section	Allocation Criteria	Maximum Hall Points	Hall Point Distribution
A	Daily Commuting Time based on Home Location	53	50% (60)
B	Types of Living Quarters	7	
C	Participation in Student Activities & Hall Activities	15	50% (60)
D	Current University Representation & Leadership Role in Student Organization	30	
E	No Prior Hall Experience	10	
F	Students' Achievements	5	

Please read carefully before proceeding to the next step of application.

***** GUIDING PRINCIPLES *****

1. The Point System applies to all eligible full-time students.
2. In **Section C**, only those activities organized by student organizations and/or departments/ centres/ offices of the University **from 1 May 2020 to 30 April 2021** are considered.
3. In **Section D**, points will only be given to **posts being taken up at the time of application** so as to facilitate students' active campus involvement.
4. In **Section F**, only those achievements awarded by recognized institutes **from 1 Sep 2019 to 31 Aug 2020** are considered.
5. To enhance accuracy and integrity of student data in calculating the hall points of students for Sections C and F in Hall Admission 2021/22, validated student data available on the in the following categories of Experiential Learning and Achievement Transcripts (ELAT) will be automatically transferred to the iHostel System (respectively for **Section C** and **Section F** of the Hall Point System) before the application period:
 - i. Category A - Awards and Scholarships (*for Section F*)
 - ii. Category B - Student Participation in Experiential Learning Activities (*for Section C*)

Applicants will be allowed to input additional records into the iHostel System if there are still vacancies in each of the two sections concerned after their available ELAT data have been transferred. Applicants need to check their ELAT records via e-SIS from time to time, and approach the record-reporting units for amendments before and/or during the hall application period in the event of missing records or errors.

6. Student data of **Section D** will be validated and provided by respective parties. The data will be pre-uploaded to iHostel System before the application period. **Students need to approach the record-reporting units for amendments before and/or during the hall application period in the event of missing records or errors.**
7. Student who provides false supporting documents and/or incorrect records intentionally may result in deduction of hall points, disqualification of application and/or disciplinary action. The Student Affairs Office (SAO) will conduct counter-checking on the applications through interview or other means.
8. The Student Affairs Office (SAO) reserves the right for final decision and interpretation on the Point System.

SECTION A DAILY COMMUTING TIME BASED ON HOME LOCATION

- Hall point in this Section refers to the commuting time as given by the HKeMobility of the Transport Department, checked and justified in January and February 2021.
- As resolved by Student Affairs Committee, all applicants are **compulsorily** required to **upload valid address proof(s)** via online iHostel System for this section during the application period, otherwise, the hall point in this Section will be forfeited. For details about valid supporting documents, please refer to **Annex II**.
- As resolved by Student Affairs Committee, Shenzhen of Mainland China will be set as the farthest location accepted to be used in the calculation of daily commuting time for **local students using non-local addresses** in their hall application. Considering customs and immigration clearance will be involved for daily travelling, maximum point will be awarded of this group of students in this Section.
- For applicants with **local student status using non-local address beyond Shenzhen of Mainland China**, the hall point in this Section will be **forfeited** as it was resolved by the Student Affairs Committee that Shenzhen of Mainland China should be the **farthest acceptable commuting distance to and back from the University on a daily basis**.
- Home locations below are listed in **alphabetical order**. All information was checked via the HK eMobility of the Transport Department as at January and February 2021.

Notes on calculation of hall points based on daily community time

1. Hall point in Daily Commuting Time Based on Home Location refers to the travelling time as given by the [HKeMobility](#) of the Transport Department, checked and justified in January and February 2021, according to the following parameters:
 - (i) By clicking "more..." in "Route Search", the following settings will be adopted:
 - Service Mode: All services
 - Walking Distance: Longer;
 - Walking Route: Normal
 - Fare: Adult
 - (ii) Input home location in "A" and select the first option with public transport services (e.g. bus / minibus / transport terminus, etc.) in the pull-down menu as origin. If there is no such an option with public transport services, select the first location among the options in "A". If there is a designated location listed in a blanket, for example Tai Wai (Tin Sam), only the location listed inside the blanket, i.e. 'Tin Sam' will be input in "A" for checking travelling time;
 - (iii) If there is no search result for the first location selected in "A", the second location will be selected instead;
 - (iv) Input "The Education University of Hong Kong Minibus Terminus (Green Mini Bus) / 香港教育大學小巴總站(專線小巴)" in "B".
 - (v) The shortest estimated travelling time would be used as reference;
 - (vi) If there is more than one shortest travelling time, the first travelling method will be used as reference.
2. The travelling time determined by the [HKeMobility](#) is not necessarily the actual travelling time that a student spends nor the actual transport modes that he/she takes. However, it provides a common base and a reference point to assign a hall point which is considered more standardized.
3. Locations which are not included in point system can be checked via the [HKeMobility](#) of the Transport Department, <https://www.hkemobility.gov.hk/en/route-search/pt>, for the travelling time so as to match with appropriate address code.
