Programme Aims

The Double Degree - **Bachelor of Arts (Honours) in Personal Finance and Bachelor of Education (Honours) (Business, Accounting and Financial Studies)** programme aims to train pre-service teachers to effectively teach Business, Accounting and Financial Studies (BAFS), Business Fundamentals (BF) and business-related subjects in secondary schools. Students are also equipped with academic and professional competencies in personal finance and finance advisory. They will be introduced to the fundamental operations of the banking and financial sector within the global business context, and the contemporary conceptual and practical issues in investment analysis, portfolio management, budgeting and taxation, wealth management, and financial planning and counselling, with the emphasis of the adoption of artificial intelligence (AI) as a tool. The disciplinary knowledge in personal finance and finance advisory can enhance prospective teachers' competence to deliver financial education and organise student activities in secondary schools, in response to the enhanced efforts of the Education Bureau (EDB) to promote financial education in the school sector. We expect graduates will be able to display competent teaching with professional conduct and ethics for quality business and financial education provision in secondary schools. Alternatively, graduates can become professional practitioners in the finance sector.
